Canon

✓ Canon PIXMA printers, built for your business

Canon PIXMA printers offer a complete, practical solution. With stylish design and a range of intelligent features, including Wi-Fi connectivity, they deliver outstanding printing results and enable you to take the next step in running your business more efficiently.

Giving you everything you need to deliver outstanding printing results

Enjoy the peace-of-mind that comes from knowing you can generate high-quality, high-volume documents to meet any deadline – and achieve greater productivity for less cost.

Spend less time changing inks, get more ink for your money and share printed documents seamlessly, across your entire business.

1

Longer lasting ink

PIXMA MX925

Canon's MX925 printer features an optional XXL-sized ink tank that is capable of printing up to 1,000 pages without being changed.

So, you get more prints for your money, and stay productive while controlling costs.

2

Get connected

Great connectivity offers genuine flexibility and convenience. With Wi-Fi, Ethernet and cloud technologies, you can send important documents to print from most mobile devices, from wherever you are – and they'll be waiting for you when you return to your home or office.

3

High productivity

Thanks to its large 250-sheet cassette, the MX925 printer can hold more paper than any other PIXMA. It also boasts a 2-sided Auto Document Feeder that takes up to 35-sheet documents, removing the need for manual loading.

So you'll spend less time refilling and get more time to concentrate on more productive business priorities.

Maximise productivity, minimise cost

With XL and XXL cartridges available for your PIXMA printer, you'll achieve fantastic print quality and get great value for money.

More documents in less time

Canon's XL ink cartridges are designed for extra efficiency, giving you more pages for your money and requiring fewer cartridge changes. Therefore, you get maximum printing productivity for minimum cost. XL inks are available across the range saving up to 50% per page*.

What's more, the XXL cartridge gives you ultimate efficiency – with up to 1,000** page prints per cartridge.

*Based on Canon RSP, comparing PG-540XL and CL-541XL to equivalent non XL Canon cartridge, using ISO/IEC24712 page yield.

**ISO/IEC 24711 www.canon-europe.com/ink/yield.

Get connected

Wi-Fi and Ethernet capability means you can easily share your printer between multiple PC's around the office or home.

Mobile Printing

AirPrint

PIXMA Cloud Link

Google Cloud Print Ready

Using the Easy-PhotoPrint app (supports Android, Windows RT* and iOS devices) available from the app store, you can print and scan wirelessly anywhere around the office. Apple® AirPrint™ support also allows you to print wirelessly from any of Apple's portable devices via a Wi-Fi router, including the iPhone, iPad and iPod touch.

Enjoy the freedom of internet printing

By using Google Cloud Print you can print Google Docs, emails and attachments from virtually anywhere.

Effortless media handling

With a generous 250-sheet paper cassette, automatic 2-sided printing and a Direct Disc Print facility, the PIXMA MX925 handles a versatile range of media effortlessly.

2-sided ADF

250-Sheet Cassette

Auto 2-sided Print

Direct Disc Print

Automatically scan, copy or fax large double-sided documents using the fully-integrated 35-page 2-sided Automatic Document Feeder. A high capacity 250-sheet tray means you spend less time loading paper, while automatic 2-sided printing reduces the amount of paper you use. Double front paper cassettes mean you can conveniently have two media types loaded at once, plus you can print directly onto printable discs using Direct Disc Print.

Whatever your requirements, the PIXMA range has the media handling capability to deliver stunning results.

Why print wirelessly?

“Printing wirelessly allows me to print on the move, wherever I am. It also means others can share the same printer creating more space in the home or office as they don't need a printer each.”

David Martyn | Architect

Take control with cutting edge software

The PIXMA range features great software to help meet your office needs.

New to the PIXMA MX office range is Canon's My Image Garden Software. This combines all software previously available for Canon PIXMA printers in a single, easy-to-use interface. The new printers also come with the option to scan documents straight to cloud services such as Dropbox and Evernote, and the ability to create PDF documents with passwords for enhanced document security.

With Easy-WebPrint EX, you can save paper by only printing what you need from the web. Clip content from several sites and combine it to create and print just one document, allowing you to efficiently gather information and share it with colleagues and clients.

My Image Garden

Easy-WebPrint EX

Designed for your environment

The PIXMA range features a Dual Function Panel with crystal clear large TFT display.

The LED-lit dual purpose keys change appearance according to the mode selected, reducing the number of keys on the product. The printers also feature a large, TFT display that allows you to access various features such as USB printing straight from the printer, without the need for a PC.

Canon's FastFront design makes space for your All-In-One in even the busiest office. Paper and ink cartridges are loaded from the front, so it's possible to place the device where it's most convenient for you.

Dual Function Panel

All-In-One product range & benefits

Giving you everything you need to deliver outstanding printing results

PIXMA MX395

Office All-In-One with 30-page ADF

- Print more with XL cartridges
- Fast mono and colour prints
- A4 copy speed ISO sFCOT approx. 23 seconds
- Create PDFs quickly
- Extract text from PDF and JPEG files
- Scan to cloud
- Easy-WebPrint EX
